

Undervoltage monitor KUW 112 / KUW 124

Technical information

Auxiliary voltage

12 V DC (9 ... 18 V / KUW 112)
24 V DC (18 ... 32 V / KUW 124)

Power consumption (relays energised)

approx. 60 mA (KUW 112)
approx. 30 mA (KUW 124)

Activation voltage (adjustable)

9.6 V ... 14.4 V DC(KUW 112)
19.2 V ... 28.8 V DC(KUW 124)
represents 80% respectively ...
120%

Ambient temperature

-20 ... +55 °C

Housing dimensions

W / H / D : 23 x 75 x 110 mm

Description	Ordering information
<p>The KUW 112 / KUW 124 monitor a direct current network for undervoltage. A potentiometer is used to adjust the switching threshold.</p> <p>The operating manual can be downloaded on our Homepage www.kuhse.de .</p>	<p>KUW 112 : 2W112UB000 KUW 124 : 2W124UB000</p>
